La beauté a son laboratoire

contour des yeux line protecting a youthful gaze

The area around the eyes is especially sensitive and vulnerable and, more than others areas, requires special care.

With its 7 products, the exclusive MATIS **Contour des Yeux** is a very extensive line. It was designed and developed by our Research Centre with care and professionalism, to be suitable for the most sensitive eyes. It is exceptionally well-tolerated because it respects ocular pH and only uses very gentle ingredients.

The efficiency of the proposed formulas is guaranteed by strictly selected soothing, decongestant, firming and protective active ingredients.

And because MATIS leaves nothing to chance, the purity and quality of the three **Contour des Yeux** intensive care products is preserved in airless containers.

Remove make-up!

- With **Eye Cleansing Lotion** which is limpid and pure like clear water but rich with oligosaccharides that strengthen the skin's ecosystem, green tea and moisturising* agents. **Express cleansing efficiency and perfect tolerance:** for happy eyes!
- If your eyes prefer a fine, extremely light texture and the softness of camomile, then use **Eye Cleansing Emulsion** It gently removes eye make-up.

Rest!

- Your eyes deserve a few minutes rest and the exquisite softness of cornflower, camomile and witch-hazel. Offer them **Gentle Eye Lotion** which rests your eyelids and relaxes your eyes. Thoroughly soak two cotton-wool pads in lotion, then apply as compresses for 5 to 10 minutes, thus opening the way for your eyes to feel good. You can also use it to finish removing make-up or as a tonic for the area around the eyes.

Beautify!

Choose what is best for your eyes among 4 intensive eye care products!

- For an amazingly beautified look, choose the **Eye Care Mask De-Stressing**. This face pack gel replaces dullness with radiance thanks to its draining active ingredients (black tea, seaweed), boosters (silicon by-products, centella asiatica) or soothing ingredients (soft sugar, seaweed gel). Apply a thin layer around your eyes, leave for 10 minutes, then remove gently with the **Gentle Eye Lotion**

* of superficial layers of the skin.

- To help erase marks left by time and enjoy younger-looking eyes, choose the **Eye Contour Balm A Shield Against Time** with its high-performance active ingredients: silicon by-products and centella for regenerating and firming, ruscus for stimulating, liposomes full of plant ceramids for intensely nourishing, oligosaccharides for long-lasting strengthening of skin defences. Apply this balm in the morning to protect your eyes throughout the day, then again in the evening so that tired eyes can be toned and repaired while you sleep.

- The mission of the **Eye Care Gel Anti-Tiredness** is to make bags disappear and relax eyes. This pleasant gel makes full use of its soothing and decongestant active ingredients. The crystal clear gel includes green tea with a high percentage of active ingredients, aloe gel and various moisturising* agents, smoothing the eye area as soon as you wake and letting them rest throughout the day. The soothing effect is also guaranteed if you apply it in the evening.

- Let yourself be charmed by the **Eyes & Lips Treatment Mask Extreme Comfort** for eye and lip areas. If applied thinly in the evening, this sea elastin-based cream face pack nourishes the skin. Leave it on all night to "recharge" your skin. If applied thickly, this rich emulsion will act as a face pack. Remove it gently with the **Gentle Eye Lotion** after about ten minutes. It is a real skin energising bath for your eyes and lips.

contour des yeux line

Because your eyes deserve every attention

The area around your eyes is delicate, protect it with a complete programme, with specific objectives:

- **Respecting ocular pH:** this is the first requirement for taking care of eyes without making them more delicate.
- **Stabilising and strengthening the skin's ecosystem:** enabling the thin and fragile skin around the eyes to resist daily aggression more easily.
- **Moisturising* and nourishing:** because beauty first requires optimal moisturisation*. Skin can only be soft and supple if it is kept moist*.
- **Soothing:** to feel comfortable and light again.
- **Protecting:** by neutralising aggressive agents, particularly the notorious free radicals that attack this delicate area.
- **Draining, relieving congestion:** helping to eliminate toxin build-up and restoring harmonious exchanges within tissues, in order to rest your eyes.
- **Firming:** to improve the tone and firmness of the eye area.
- **Stimulating and regenerating:** energising so that your look recovers its sparkle.

The **Contour des Yeux** line developed by the MATIS Research Centre offers you the performances of the best active ingredients.

- **Top-quality plant extracts selected for their:**
 - decongestant, lipolytic or anti-radical action: green tea, black tea or witch-hazel They help to get rid of bags and fatty deposits,
 - great gentleness: camomile or cornflower, for their moisturising* properties: aloe vera or seaweed,
 - stimulating or regenerating activity: centella asiatica and holly.
- **Gentle and active sugars from the latest technological developments!**
 - an "eco-regulating" oligosaccharide, which enhances skin protection from external aggression,
 - a polysaccharide produced from biotechnology, which maintains hydration* and provides infinite softness to skin.
- **And for even greater efficiency:**
 - grafted silicon by-products with excellent regenerating properties,
 - iposomes rich in plant ceramids.
